LED LIGHT DROPS

Tube style LED light drops are hypnotic, engaging, and yet peaceful making them perfect for both indoor and outdoor holiday decorating. Each LED light drop has color LED diodes on two sides. The diodes light in a top to bottom motion for a raindrop effect. Cord is not included, we recommend using the 5 socket 72" spaced C9 cord. This Cord is 26' in length and provides perfect spacing for creating clusters of light drops for motion in trees.

COMMERCIAL TOWER TREES

Tower trees are a top choice with professional decorators. Individual branches give these trees the most realistic appearance. The PVC foliage, along with our patented, sealed LED bulbs work great for both indoor and outdoor use.

Call For A Quote on Larger Sizes!

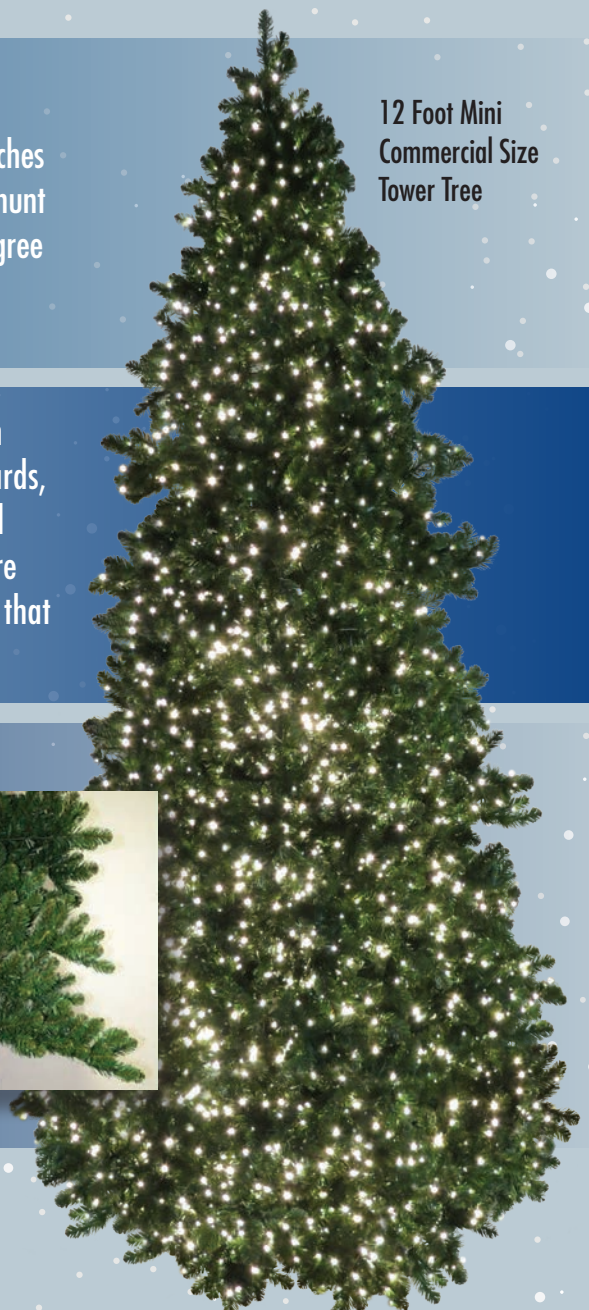

Commercial Tower Trees are constructed with a steel frame design and lush evergreen branches that sweep gently outward. All HBL tower tree pre-lit branches are the same size and are easily attached to the tree frame without having to hunt for specific placement of each branch. HBL trees are made with the highest degree of commercial-grade standards for any home or business project.

12 Foot Mini Commercial Size Tower Tree

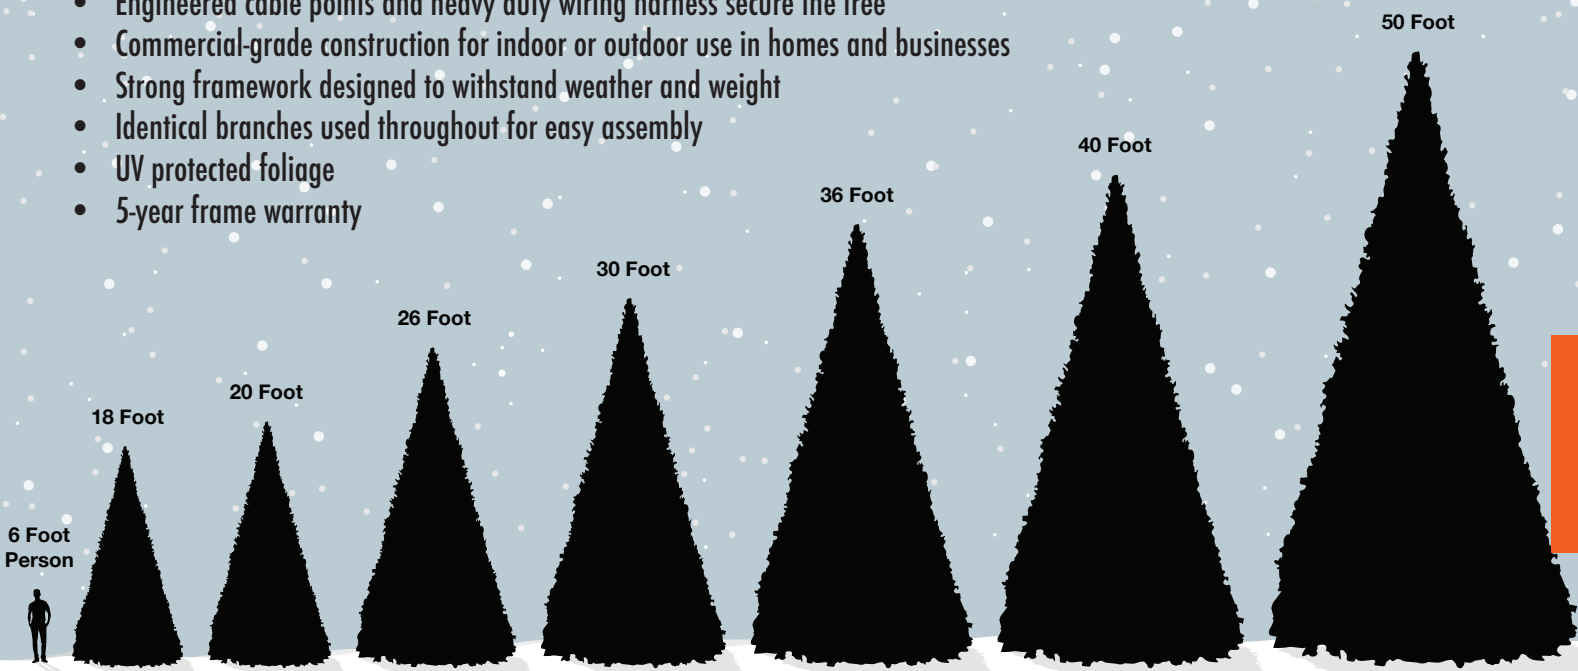

Mini Tower Trees are designed with the same commercial-grade standards, with a smaller size steel frame and a slender look. Mini tower trees are perfect for smaller budget projects that still need a wow factor.

Tower Tree Construction

Features at a Glance:

- Add height in 2 foot sections for trees ranging from 12 - 60 feet high
- Evenly shaped from the base through the top
- Engineered cable points and heavy duty wiring harness secure the tree
- Commercial-grade construction for indoor or outdoor use in homes and businesses
- Strong framework designed to withstand weather and weight
- Identical branches used throughout for easy assembly
- UV protected foliage
- 5-year frame warranty
